

Guidelines for Composite Images / Photomontage Service

- Your image should be more than **2mb** in size. (i.e Take the photographs on a camera of 10mp or higher)
- There should be nothing in way of the main space so that the planters can fit in with no obstructions.
- The view of the photograph should be straight on so that the planters sit flush in the environment.
- Colour is an approximation and will not look exact when re-produced.
- Livinggreen Design planters only
- We may not be able to provide you with the exact plant required but if you can provide this photograph on a white background taken at a slight angle then we may be able to accommodate your request. (example provided)
- We would aim for a 2 working days turnaround on images.
(There may be unforeseen circumstances due to staff sickness/holidays but you will be informed at the time of enquiry)

All images remain the copyright of Livinggreen Design and may be used in Livinggreen Design published material; whether it be electronic or print.
