

# Cityscape Planters

# cityscape planters

Designed for the urban environment, the Cityscape planter range is perfect for use in streetscapes, roof gardens and atriums. Clean contemporary designs are paired with modern advanced composite construction and state of the art finishing. The results are beautiful, practical landscape enhancing structures that have the look and feel of solid stone, concrete and metal, but at a fraction of the weight and cost. Genuinely indistinguishable from the real thing, these are planters built to survive the most demanding environments as standard and can be returned to the factory at any time for full reconditioning to an as new standard.
